Dear [Ms. or Mr. Last Name],

I am writing in response to the advertisement posted for a Senior Software Engineer with [Company Name]. As a highly competent programmer with expert knowledge C, C++ and Java, I feel confident that my background makes me the right fit to help [Company Name] reach the next level of success in the competitive world of network storage.

I offer [Number] years developing software for storage systems, a strong aptitude for learning new technologies and skill in meeting aggressive goals. I implemented multiple custom storage solutions at [Company Name], one of which was used in a secret governmental project. The experience was challenging and it jumpstarted my interest in storage systems. My experience highlights include:

- Software Development: I bring over [Number] years developing software for networking and storage software applications in both a Windows and Linux/UNIX environment. I'm experienced and comfortable working with large C++ code bases involving complex cross-platform multi-threaded network code. In addition, I possess solid knowledge of Internet protocols such as TCP/IP, UDP/IP, DNS, and HTTP. I am also proficient in Perl, Javascript, and HTML.
- Project Management: I have a proven track record for creating and deploying large-scale distributed systems designed for efficiency and scalability. I am adept at providing high-level technical direction and working either individually or in teams to drive projects from conception and design to QA testing and ultimate deployment.
- Open Source Projects: In my free time I maintain and contribute to [Project]. I actively participate in the storage systems community and I'm up to date on the latest network storage trends.

Overall, I feel that my knowledge as a programmer in the storage systems space and my willingness to learn new technologies makes me the ideal candidate to meet your development needs. I'd be glad to discuss my abilities and background in more detail. Thank you for your time and consideration.

Sincerely,

Shaoqing Yu
